Q20. An "education scholarship account" – **often called an ESA** – establishes a government-funded account with restricted, but multiple uses for K-12 educational purposes. Parents can use these funds to pay for: school tuition; tutoring; online education programs; therapies for students with special needs; textbooks or save for future college expenses. Parents are only provided the level of funding that the state would have spent on their child if they remained in a public school. In general, do you favor or oppose an ESA system? **[PROBE:]** Would you say strongly or somewhat favor/oppose?

	Gen Pop	Current School Parents	Urban	Suburban	Small Town/Rural

Q25. In a “**tax-credit scholarship system,**” a government gives tax credits to businesses if they contribute money to nonprofit organizations that distribute private school scholarships.

Iowa enacted such a “tax-credit scholarship program” in 2006, called the **School Tuition Tax Credit** program. The program’s nonprofit scholarship organizations provide scholarships to low-and-middle income students, so they can attend a private school of their choice, including both religious and non-religious schools. The student’s parent then uses the scholarship to pay partial or full tuition for the chosen private school. In general, do you favor or oppose this tax-credit scholarship program?

[PROBE:] Would you say strongly or somewhat favor/oppose?

Q26. Currently, there is a limit on the amount of **tax-credit scholarships** available to Iowa students. As a result, many children are currently on waiting lists to receive scholarships for some of the school tuition organizations.

Knowing this, would you favor or oppose increasing the cap on these tax-credit scholarships so more children can participate in this program to attend the public or private school of their choice?

[PROBE:] Would you say strongly or somewhat favor/oppose?
